

## BAD BOYS YOU WANT TO TAKE HOME

**Book Store - Merch Store - Audiobook Store - Reader Group**

Hi lovelies!

I've finished the first book of Stan's duet so I'm looking to celebrate - hit me up with a **brother's best friend shifter romance**? Any and all recs accepted with those tropes. Pretty please<3

Do you celebrate with books, too? There's nothing better than diving into bed, phone (and kindle app open) in one hand, snacks in the other, haha.

I've never really been one for clubs or, well, anything outside of my house. LOL. Fictional worlds are far more interesting, but then that's how I got here, I guess. I wouldn't be talking to you now if I were different!

I have a goodie for you - **MOON CHILD** is free today only!

Be sure to grab your copy while it's still live at 0 pennies on the 'Zon!

Here's a sneak peek at the blurb:

**Eli**

A goddess told me my child would change the pack.

Until it happened, I didn't believe it.

Not until I saw it with my own eyes.

Anyhoo, keep reading because there's a fabulous excerpt from Tia Louise's new release!

And I know y'all are excited for Stan's story and, as always, **I Told You So** is on the case! Check it out **here**!

Until next time,

Happy reading!

Much love,

Serena / Gem xo

# The Way We Score by Tia Louise

## Excerpt

The moon is full tonight, and even at this hour, it casts a silver glow over the wide path. It's a short walk to her mom's cottage, but **we're taking it slow**. We're taking everything slow, considering how much water is under this bridge.

In the past, when we were teens, she'd hop on my back, and I'd hold her legs as we made this walk. Her arms would be around my shoulders, and her cheek would be right next to mine.

Sometimes she'd tilt her head to the side to tell me something, and her lips would brush my ear or my neck. **Sometimes I'd turn my face and kiss her for it.**

Soft lips, cherry lip gloss. I remember her sleeping over at our house, starting on the couch and ending in my bed, her body draped over mine, **kissing those lips again and again.**

Now, walking beside me, **she's like a beautiful vision.** The moon tips her hair in shiny light, and I want to reach down and take her hand, thread our fingers.

The water washes against the sandy shore, and I look out at the bay. I think about the old sailors who'd been out to sea a long time seeing land for the first time. They'd fall to their knees and weep for joy.

In a way, that's me. I'd pushed these feelings down so far, I didn't realize how strong they were until she came into my sight again, **everything I want...**

**Available in Kindle  
Unlimited, PB, & Duet
